

Welcome to the Aurora Entrepreneurialis Teacher Training Course!

The course is focused on three key themes: 1) entrepreneurial culture in schools, 2) sustainable entrepreneurship in education, and 3) cross-border collaboration.

There will be 12 sessions, each session will contain recorded lectures with experts, followed by digital seminars. Sometimes there will be some additional materials, like articles or additional videos to watch. We will send you all the links and materials to each session separately via email.

We are using a flipped-classroom style of learning, with an interactive seminar. **It is therefore very important that you watch or listen to the lectures before the seminar.** We will provide the lectures well in advance so that you will have time to fit it into your schedules.

The course is open to all school staff in the region, so feel free to share with your colleagues and networks. It is okay to attend only some of the seminars. The focus will be on secondary level education, but primary school staff are also welcome.

We hope that the course will bring you all a lot of new ideas, inspiration, and practical advice! If you have any questions, requests, or suggestions for future speakers, feel free to get in touch.

Schedule 2023/2024

Session 1: Critic, Mindset, Entrecomp & Greencomp / Mats Westerberg, LTU
